

## HW VENTILATION: OUR MISSION

**HW Ventilation is an experienced, trustworthy manufacturer of axial fans and ventilators for industrial applications.**

We aim at offering our customers high quality, efficient, and rightly priced products, made with the best materials provided by rigorously selected suppliers.

Our products, and their components, are 100% made in Italy.

We view ourselves as partners who help our customers find the best customized solution for any need in air movement and in a timely manner.

We aim at strengthening our position as global leaders, consolidating our position in our traditional markets, and expanding internationally through our growing network of agents and distributors.
